What is a Community of Practice (CoP)?

- A Community of Practice (COP) refers to a group of people who share a common interest, passion or a concern for something they do and who interact regularly to learn how to do it better. (Wenger, 2006)
- A CoP is a group that is created with the goal of gaining knowledge and sharing information and experiences related to a specific topic.

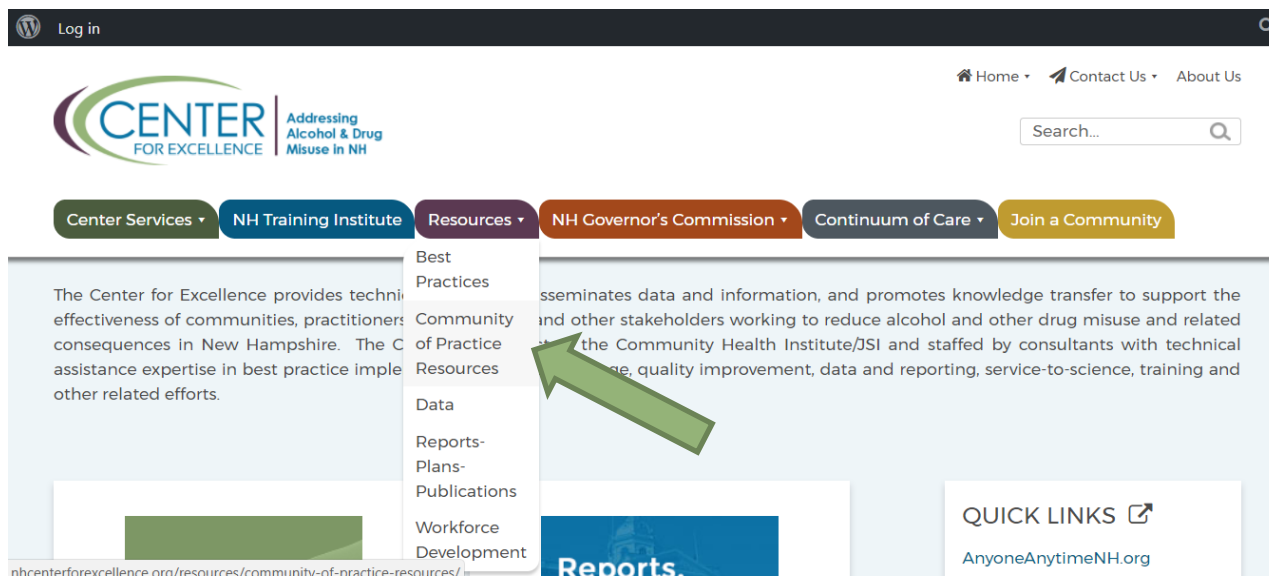

CoP Opportunities

- Participants will have the opportunity to receive and engage in:
 - Webinars
 - In-Person Meetings
 - Group Calls
 - Resources and Tools
 - Discussion Forum
 - Individual Technical Assistance

Resources & Tools

All materials will be posted on the NH Center for Excellence website.

<http://nhcenterforexcellence.org/resources/community-of-practice-resources/>

The screenshot displays the website's navigation bar with the following menu items: Center Services, NH Training Institute, Resources, NH Governor's Commission, Continuum of Care, and Join a Community. The 'Resources' dropdown menu is open, listing: Best Practices, Community of Practice Resources, Data, Reports-Plans-Publications, and Workforce Development. A green arrow points to the 'Community of Practice Resources' option. The page header includes the logo for 'CENTER FOR EXCELLENCE Addressing Alcohol & Drug Misuse in NH', a search bar, and navigation links for Home, Contact Us, and About Us. The main content area features a text block on the left and a 'QUICK LINKS' section on the right with the text 'AnyoneAnytimeNH.org'. The URL 'nhcenterforexcellence.org/resources/community-of-practice-resources/' is visible at the bottom of the page.

Discussion Forum vs. Google Group

Both options allow participants of the CoP to share information and resources and ask questions.

Which discussion group would you be interested in using (select one option)?

Discussion Forum on Center

Google Group

I wouldn't use this
discussion group.

Technical Assistance

TA specific may be requested.

Overview of ASAM Fidelity Tool

AMERICAN SOCIETY OF ADDICTION MEDICINE (ASAM) CRITERIA FIDELITY AUDIT CHECKLIST					
The goal of this tool is to ensure effective use of ASAM criteria to determine appropriate level of care, to individualize treatment and to reassess care for patients with substance use disorders. A rating of "YES" verifies that the standard is fully implemented and meets ASAM expectations. Specific recommendations and comments are provided for any standard rated "PARTIAL" or "NO".					
Measures	Implementation Status				Recommendations/Comments
	Yes	Partial	No	N/A	
I. ASSESSMENT					
• Was collateral information collected from informants/contacts to better assess the needs of the individual?					
• Was an immediate need profile of some type completed?					
• Was an evidence-based tool used to gather adequate, substantive knowledge from the patient (e.g. Addiction Severity Index)?					
• Is the assessment instrument(s) appropriate for the age, culture and language of the patient?					
• Were additional prompts/questions used to solicit more detailed responses outside of the assessment tool(s)?					
• Were each of the six ASAM dimensions assessed?					
II. LEVEL OF CARE DETERMINATION					
• Was a severity rating score between 0 and 4 assigned for each ASAM dimension?					
• Were imminent risks (score of 4 in any dimension) identified and addressed immediately?					
• Were past treatment episodes considered when determining level of care placement?					
• Does the identified level of care appropriately match assessment?					
• If the level of care was not immediately available was the patient referred to an outside agency, placed on a waitlist and/or connected with interim services?					
III. TREATMENT PLANNING					

➤ Purpose of Tool:

1. Program Level: To assess progress & continual quality improvement with using ASAM criteria

2. State Level: To measure effective use of ASAM criteria among treatment providers

3. State/Program Level: To identify training & technical assistance needs
