

Warning Signs: Recognizing When Someone Is In Danger

When it comes to the misuse or abuse of prescription pain medication, **anyone can be at risk**. It is an issue that affects all populations and it is important to recognize the warning signs when someone you know is in danger. Indicators include:

Frequent physician visits

Depression, anxiety, or post-traumatic stress disorder

Aggressive behavior to obtain prescriptions

Smoking or frequent abuse of alcohol

Personal or family history of substance abuse

Sharing medications

Increasing dose without first discussing with a health care provider

If you think you or a loved one is misusing pain medications, there IS help.
