

NH COMMUNITIES OF PRACTICE

Join a CoP Today!

Communities of Practice (CoPs) link together people with common professional interests so they can share best practices, create new knowledge, and explore current topics in their fields.

Prevention CoP

Connects substance misuse prevention professionals to improve communication between and within systems of care addressing substance misuse and more.

Peer Recovery Support Services CoP

Connects RCOs and others who deliver peer recovery support services to foster conversations that enhance knowledge and skills.

Substance Use Disorder (SUD) Treatment CoP

Connects clinicians and other providers working with individuals who have SUDs.

Hospital System Addictions Care CoP

Helps hospital-based administrators, healthcare providers, and other practitioners implement systemic and effective approaches that address the SUD needs of patients and enhance patient and hospital outcomes.
